EXPERIENCE

Campus Lead

January 2025 – Present

Changemaker at ASU West Valley

Phoenix, Arizona

- Conducted usability evaluations of Changemaker website and recommended improvements to navigation and content clarity.
- Designed promotional materials and merchandise for Changemaker, ensuring visual consistency with ASU brand standards.
- Collaborated with cross-functional teams to plan programs, manage communications, and support student participation.
- Led campus initiatives and coordinated events that promote social impact, sustainability, and student engagement.

Changemaker Scholar

February 2024 – January 2025

Changemaker at ASU West Valley

Phoenix, Arizona

- Supported the planning and execution of campus programs focused on community impact and student involvement.
- Created digital marketing content and social media assets to increase outreach and event awareness.
- Collaborated with student teams and campus partners to coordinate event logistics, timelines, and outreach efforts.

PROJECTS

- **Mabeproducts.com Website Usability Evaluation & Redesign (With a Partner)**
 - Conducted heuristic evaluation using Nielsen Norman Group principles to identify critical usability issues.
 - Led moderated usability testing with 4 participants and authored a comprehensive UX report.
 - Translated research into actionable wireframes and recommendations that were implemented, improving the site.
- **Changemaker Website Usability Evaluation (ASU)**
 - Performed heuristic analysis using Nielsen Norman Group principles to evaluate usability and information structure.
 - Identified usability gaps and developed actionable recommendations to improve hierarchy and user flow.
 - Authored and presented a formal UX report to stakeholders, influencing redesign decisions.
- **eDreams.net Homepage UX Refresh**
 - Conducted moderated usability testing of 4 participants to uncover friction in usability and content hierarchy.
 - Synthesized research insights into prioritized UX recommendations aligned with user and business goals.
 - Designed a high-fidelity homepage prototype in Figma to improve layout clarity and visual hierarchy.
